Conclusions & Recommendations

OVERVIEW

This report aims to review the company's financial and bookings performance from **January to December 2023**. Data was analyzed to obtain revenue and profits, as booking performance of the hotel and customers.

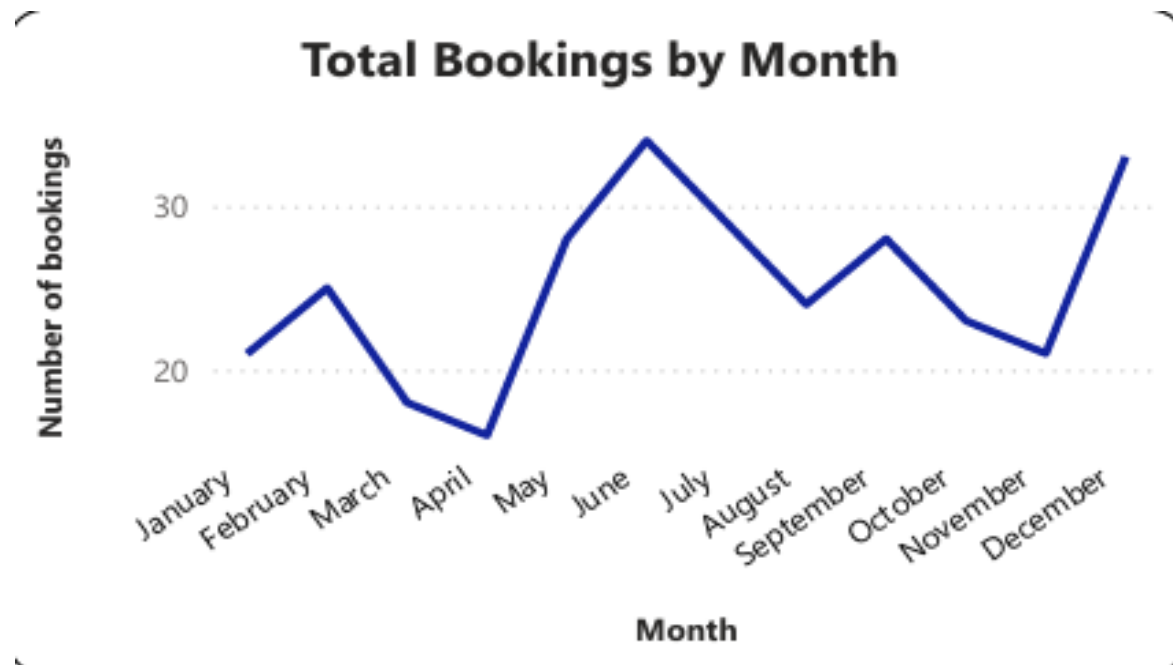

The analysis of this report was achieved using **PowerBi**. Various computations were made to arrive at key business metrics to drive decision making.

Key metrics presented in this report include revenue trend, analysis on distribution channel and cancellation rates.

BOOKINGS TREND

- June is the month with the highest booking of 34 generating over 10% of the total revenue followed by December with a total booking of 33.
- March and April has the lowest bookings of 18 and 16 respectively.

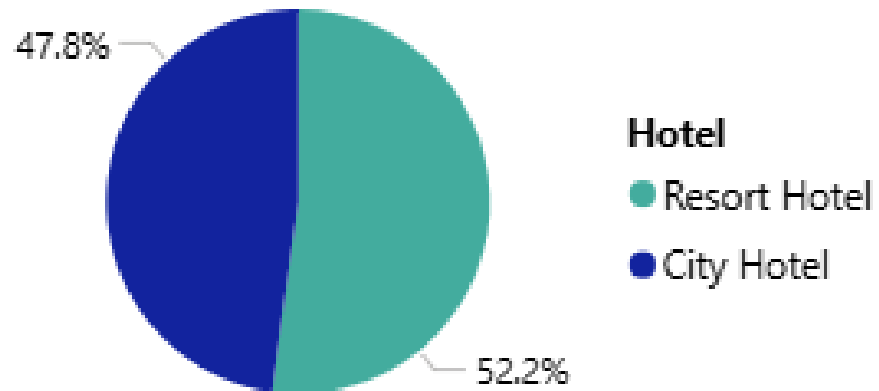

REVENUE BY COUNTRY

Country	Total Revenue
USA	\$166,836
UK	\$118,350
N/A	\$116,412
FRA	\$108,416
NGA	\$87,715
Total	\$597,729

- USA is the county with the highest revenue of over 166 thousand USD followed by UK with a revenue of 118.35 thousand USD.
- The countries with the least revenue are FRA and NGA with a total average revenue of below 100 thousand USD.

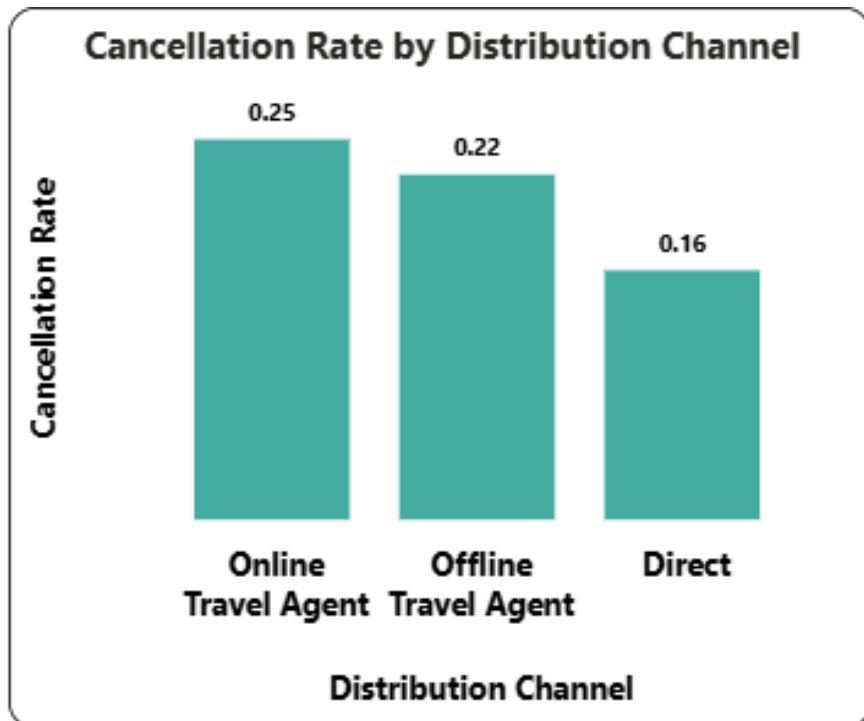

REVENUE BY HOTEL

Total Revenue by Hotel

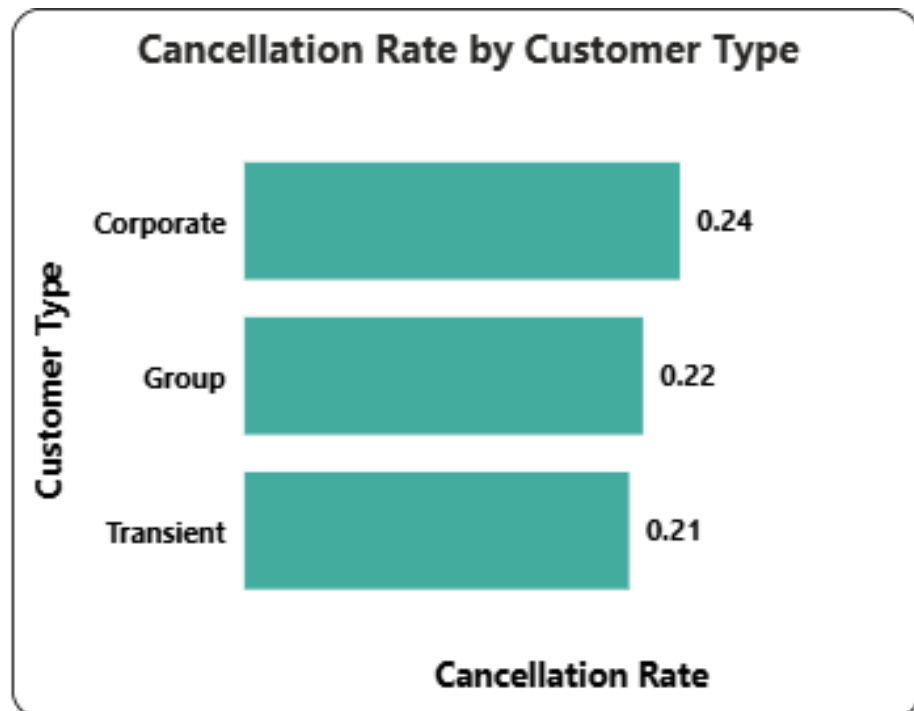

- Resort Hotel contributes to the total revenue by 52.2% with a revenue of over 311 thousand USD.
- City Hotel contributes to the total revenue by 47.8% with a revenue of over 285 thousand USD.

ANALYSIS ON DISTRIBUTION CHANNEL

- Online Travel Agent has the highest cancellation rate of 0.25 and also the highest booking of 126.
- Offline Travel Agent has a cancellation rate of 0.22 and a total booking of 112.

- Corporate customer type has the highest cancellation rate of 0.24 and the lowest number of booking of 71.
- Group customer type has a cancellation rate of 0.22 and a total booking of 73.
- Transient customer type has the lowest cancellation rate of 0.21 and the highest number of booking of 156.

CONCLUSION

- A total revenue of \$597.73K USD was achieved in the year 2023 with June and December being the highest months.
- USA and UK are the highest countries generating the highest revenues.
- Resort Hotel contributes more to the total revenue than the City Hotel.
- Online Travel Agent and Corporate Customers have the highest cancellation rate.
- Transient customer type has the highest number of bookings contributing more to the total revenue.

RECOMMENDATIONS

The company should update their **booking software** regularly and accept feedbacks of the software from the customers to reduce the cancellation rate of the Online Travel Agent.

The company should invest more in the **Resort Hotels** as more Transient customers prefers the hotel especially during **Summer and Christmas season**.

The company should make sure all branches of the hotels are functional especially from **May – December**.
